### Assignment 1.14: Small Group Workplace Visits

**Instructions:** In groups of 3, you will do observations at 3 different workplaces. Take turns as Observer #1, Observer #2, and Observer #3. Each person is responsible for being able to answer the questions assigned to them. When describing a job they observed, everyone should describe different jobs (where possible). Take notes, and complete the summary table afterwards.

| <i>Everyone</i>                         | <i>Observer #1</i>                                                                   | <i>Observer #2</i>                                                                   | <i>Observer #3</i>                                                                   |
|-----------------------------------------|--------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| <i>What is the name of the company?</i> | <i>What is 1 job you observed? What did they do and what equipment did they use?</i> | <i>What is 1 job you observed? What did they do and what equipment did they use?</i> | <i>What is 1 job you observed? What did they do and what equipment did they use?</i> |
|                                         | <i>What does the company do?</i>                                                     | <i>Describe any safety signs you saw.</i>                                            | <i>How did the workers dress?</i>                                                    |
|                                         | <i>Who are their main customers?</i>                                                 | <i>Describe any safety equipment or clothing you saw.</i>                            | <i>Why do you think the workers work here? Do they seem to enjoy it?</i>             |

| <i>Company Name:</i>              | <i>Observer 1:</i>                                                                                                                                                                                                                                                                                                | <i>Observer 2:</i>                                                                                                                                                                                                                  | <i>Observer 3:</i>                                                                                                                                                                                                                                                                                                                                                            |

| Huawei<br>Technologies<br>Lebanon | We observed the HR Specialist. In general, she manages recruitment, employee relations, and human resources operations within the company. She told us about the future job opportunities we could pursue after completing the training program and graduating. She used a laptop as her main piece of equipment. | We observed the PR & ICT Ecosystem Specialist. Her job is to coordinate with universities to recruit students for the company's training programs and competitions. She was holding a tablet and papers used for taking attendance. | We observed the instructor who teaches the lectures in the training program. During the lecture, he explained the different network layouts used in 4G networks, including the different hardware components involved, such as routers, antennas, and base stations. He used a laptop to display a PowerPoint presentation during the lecture. Outside of that role, he works |

| Huawei Technologies Lebanon | Huawei is a global provider of ICT (Information and Communication Technology) infrastructure and smart devices. Its main products and services include smartphones and smart devices, intelligent automotive solutions, network connectivity, computing and cloud services. They also have a R&D sector that focuses on developing new technologies and innovative solutions to existing products. | We did not observe any safety signs during our visit. | The workers dressed formally in professional business attire, including suits, and formal shoes. This formal dress code reflected the corporate and professional atmosphere of the company, and gave the impression that appearance and professionalism are valued as part of the workplace culture. |

|                             |                                                                                                                                                                                                                                                                                                |                                                                       |                                                                                                                                                                                                                                                                                                              |
